1.	We notice that the delivery terms requested in the Tender documents is of 22 months. Given the current production situation of our shipyards, we would need more time to accomplish this project. Therefore: Is it possible to make a proposal with a longer delivery time for this boat?	<p>Approve. Sec. 1.3 will be updated as following:</p> <p>" Bidder shall declare and guarantee that the Boat and all its components as specified in the Technical Specifications will be supplied to Haifa or Ashdod Port in CIF Terms not later than <u>24 calendar months</u> following the signature of the Agreement by EAPC."</p>
2.	We understand the fact that the limit date for asking for clarifications is next Sunday 29 th September. Given the fact that there is still more than one month time to present proposals, and not trying to move such limit date of 4 th November, would it be possible for EAPC to extend the limit date for asking clarifications in one week, up to the 6 th October?	<p>Approve.</p> <p>Participants who have questions / clarifications regarding the procedure, may only send an email to amosw@eapc.co.il, no later than <u>8th of October on 11:00, Israel time</u>.</p>
